

The Fiduciary Protection Program

Help Protect Your
Self-Insured Plan from
Costly ERISA Lawsuits

Self-insured employers face growing legal risks related to ERISA fiduciary responsibilities, especially concerning prescription drug pricing. An Rx Navigator, a Price Transparency Tool, provides visibility into drug costs, enabling employers to lower costs, reduce legal exposure, and enhance fiduciary oversight.

Adding Scripta to your benefits helps to:

- Strengthen ERISA Fiduciary Compliance
- Support PBM Contract Negotiations and Accountability
- Enable Cost Benchmarking for Members
- Reduce the Risk of Excessive Drug Spending
- Improve Employee Communication and Plan Transparency
- Support Rx Cost-Containment Strategies

The Fiduciary Protection Program

Here's How:

Strengthen ERISA Fiduciary Compliance

- Ensures employers are acting prudently in managing drug costs.
- Provides independent, 3rd-party drug alternatives and pricing to members.
- Documents cost-saving efforts to defend against litigation.

Support PBM Contract Negotiations & Accountability

- Data from Scripta can support negotiating better pricing terms in the future.
- Helps ensure that employees and employers pay fair market prices.

Enable Cost Benchmarking for Members

- Compares drug prices across pharmacies and manufacturers.
- Identifies pricing discrepancies and prevents overcharges.
- Provides defensible data to prove fiduciary prudence.

Reduce the Risk of Excessive Drug Spending

- Identifies lower-cost alternatives and biosimilars.
- Data from Scripta helps optimize prescription coverage policies.
- Avoids lawsuits related to failure to manage excessive drug costs.

Improve Employee Communication & Plan Transparency

- Provides clear explanations of drug pricing to members.
- Reduces litigation risk by ensuring participants understand costs.
- Enables employees to find lower-cost medication options.

Support Rx Cost-Containment Strategies

- Identifies alternatives to high-cost drugs and formulary inefficiencies.
- Provides data that can be helpful in setting up step therapy & prior authorizations.
- Ensures short and long-term cost savings without sacrificing plan quality.

Safeguard Your Organization and Members Today!

Contact us to learn how Scripta Insights can strengthen your Rx management strategy and help you fulfill your fiduciary duties.

Navigating the complexities of GLP-1s is challenging.

Scripta can help.

In this rapidly changing environment, your plan members are desperate for solutions. No matter how you choose to handle GLP-1 coverage, Scripta's Rx Navigation platform will guide your members to **The Right Med at the Best Price™**. Our tailored solutions help manage costs and improve patient outcomes by untangling the complexity of this confusing market.

Does your plan cover GLP-1s for weight loss?

Whether your coverage is carved into your standard PBM benefit, or carved out to a specialist vendor, Scripta helps your members better understand their options and next steps.

Does your plan **not** cover GLP-1s for weight loss?

You are not alone. Statistics show that less than 20% of companies do. This is where Scripta's GLP-1 product can be particularly effective in helping members get the medicine they want.

Our **GLP-1 Navigator** is the definitive source for understanding the options in the market, the trade-offs, and the best option for any member. It is updated weekly and has all the information a plan member would need to know about the:

- Different GLP-1 formulations and brands
- Usage and delivery method (i.e. auto-injector vs syringe)
- Types of vendors and suppliers offering GLP-1s
- Best cash-pay prices

With an estimated **30 million Americans in the market for GLP-1s**, Scripta can provide the insights, guidance, and assistance your members need. Increasing member satisfaction, keeping members healthy, avoiding productivity loss, and helping to keep your costs down.

Smarter Prescribing Starts Here

Give Providers the Tools to Make Cost-Effective Rx Decisions—Without Sacrificing Care

Introducing New Tools to Support Provider Decision-Making—and Deliver Bigger Savings

You already count on Scripta Insights to help members navigate their pharmacy benefits. Now we're taking it further—giving providers real-time access to medication pricing, formulary options, and lower-cost alternatives at the point of prescribing.

What's New:

Provider Intelligence Portal

A centralized, easy-to-use tool, integrates with existing workflows & gives prescribers:

- Member-specific formulary and pricing data
- Real-time access to therapeutic alternatives
- On-demand search and comparison tools
- Clear insights to confidently guide cost-conscious prescribing

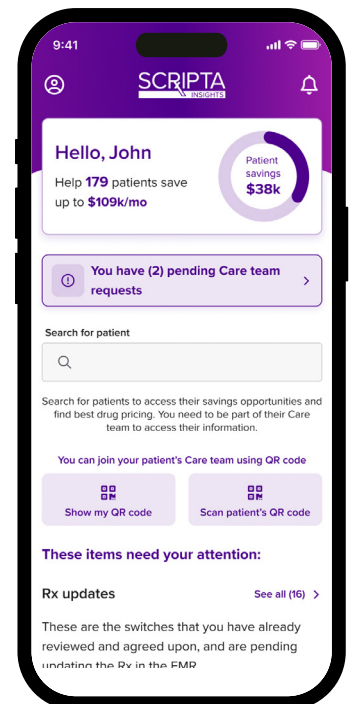

Proactive Rx Savings Alerts—Delivered to Providers

Scripta now pushes curated, lower-cost, clinically appropriate medication options directly to prescribers—before the prescription is written.

- Created by providers, for providers
- Personalized to the member's plan and clinical context
- Supports better conversations and better care decisions

Why It Matters

- **Reduce pharmacy spend** with smarter prescribing upstream
- **Empower providers** to deliver affordable care without extra admin burden
- **Strengthen provider relationships** through shared savings and transparency
- **Improve member satisfaction** by lowering out-of-pocket costs
- **Drive adoption** with seamless, workflow-friendly tools

Your Rx Cost-Cutting Strategy Just Got an Upgrade.

Let's talk about how Scripta's enhanced provider solutions can help your organization control spend, improve outcomes, and make benefits work smarter—for everyone. [Request a Demo](#)

Let's turn "Oh no!" Into "Oh yeah!"

Rx navigation benefits may cause celebration at pharmacy checkout.
